PROFESSIONAL SUMMARY

Software Engineer with **4+ years of experience** in web application development, .NET technologies, frontend development, database-driven systems, and enterprise software solutions. Skilled in **C#, ASP.NET MVC, ASP.NET Core, Web API, Entity Framework Core, ADO.NET, SQL, JavaScript, Vue.js**, Git, API integration, and Agile development. Experienced in building and enhancing FinTech and EMI modules including QR transfers, payment disputes, invoice workflows, admin reports, introducer financials, counterparty management, IBAN verification, role-based UI flows, and production-ready frontend features.

TECHNICAL SKILLS

Programming	C#	JavaScript	SQL	HTML5	CSS3	
Backend	.NET	ASP.NET MVC	ASP.NET Core	Web API	ADO.NET	Entity Framework Core
Frontend	Vue.js	JavaScript	Responsive UI	UI/UX Implementation	Cross-Browser Testing	
Databases	SQL Server	Relational Databases	Stored Procedures	Data Mapping	Query Optimization	
FinTech Systems	QR Transfers	Payment Disputes	Invoice Workflows	Counterparty Management		
	IBAN Verification					
Tools & Workflow	Git	PR Reviews	Rebasing	Conflict Resolution	Agile/Scrum	API Integration

PROFESSIONAL EXPERIENCE

Software Engineer / Frontend Developer

Jun 2025 – Present

Modular Fintech | Zolvat EMI Platform | Remote

- Work on FinTech and EMI platform modules with focus on Vue.js frontend implementation, UI/UX refinement, API integration, functional testing, PR reviews, rebasing, and production-ready delivery.
- Developed Admin Reports and Introducer Financials modules with filters, cost management, commission calculations, payment history, CSV export, role-based visibility, and financial table enhancements.
- Built QR Transfer and transfer listing flows including Normal/QR transfer selection, Send/Request Money options, currency dropdowns, exchange rate display, fee breakdowns, invoice selection, account summaries, search, filters, status badges, sortable columns, and pagination.
- Implemented QR Code Payment Dispute Management features including dispute listing, detail view, create dispute wizard, rich text editor, file upload validations, status filters, messaging flow, and full-page stepper conversion.
- Developed invoice and counterparty workflows including invoice creation, company selection, VAT calculations, PDF generation, downloadable receipts, individual/business counterparty toggle, transfer type handling, IBAN verification states, advanced bank details, and responsive form layouts.
- Supported backend/local setup and integration fixes, including Go service setup, JSON deserialization safeguards, data mapping corrections, document upload validation, state persistence fixes, and frontend API integration.

Associate Software Engineer

Jul 2024 – May 2025

Systems Limited / PartnerLinQ / Lahore, Pakistan

- Worked on PartnerLinQ, an enterprise supply chain integration and visibility platform focused on EDI, APIs, partner onboarding, data integration, reporting, analytics, and operational visibility.
- Developed and maintained web application features using .NET technologies, C#, ASP.NET MVC / ASP.NET Core, Web API, SQL, Entity Framework Core, JavaScript, and Git.
- Contributed to frontend and backend feature implementation, database-driven functionality, API integration, bug fixing, performance improvements, testing, and production-focused delivery.

Associate Software Engineer

Dec 2022 – Jul 2024

Siriz Apps / Lahore, Pakistan

- Contributed to custom business software, web applications, and enterprise-level application modules using .NET technologies.
- Developed and maintained web-based and Windows-based applications using C#, ASP.NET MVC, .NET Framework, Web API, ADO.NET, Entity Framework Core, SQL, JavaScript, and Git.
- Designed, optimized, and maintained SQL database queries, stored procedures, relational data structures, backend logic, reporting workflows, API integrations, debugging, testing, and application maintenance.

Software Engineer Intern

Mar 2022 – Nov 2022

NETSOL Technologies Inc. / Lahore, Pakistan

- Gained hands-on experience in enterprise software development, framework design, database-driven applications, debugging, testing, issue resolution, and team-based SDLC workflows.
- Built a strong foundation in clean coding, technical problem solving, data structures, database concepts, and professional collaboration.

Web Developer

Jul 2021 – Mar 2022

Managed Service Providers / Lahore, Pakistan

- Developed and maintained web application features using .NET, SQL, HTML, CSS, JavaScript, and related web technologies.
- Worked on frontend updates, backend support, database queries, UI improvements, bug fixing, troubleshooting, and application support.

SELECTED PROJECTS

Zolvat EMI Platform QR Transfers, Disputes, Invoices & Admin Modules

Contributed to QR transfer flows, payment disputes, invoice workflows, transfers listing, counterparty management, admin reports, introducer financials, commission calculations, payment history, role-based visibility, API integration, UI/UX refinement, testing, PR reviews, rebasing, and production-ready frontend delivery.

PartnerLinQ Enterprise Supply Chain Integration Platform

Worked on platform modules supporting B2B/EDI integrations, partner onboarding, data integration, document processing, reporting workflows, analytics, APIs, and operational visibility.

Custom Business Software & Web Application Modules Siriz Apps

Developed and maintained custom business software, web applications, Windows-based modules, backend logic, database queries, API/web service integrations, reporting workflows, debugging, testing, and client-focused application maintenance.

EDUCATION

BSCS, Computer Software Engineering <i>Lahore Garrison University</i> Grade: A	2017 – 2021
ICS, Computer Science <i>Garrison Degree College for Boys</i> Grade: A	2015 – 2017

CORE COMPETENCIES

Web Application Development	Frontend Feature Implementation
Backend Logic Development	REST API Integration
Database Query Optimization	UI/UX Refinement
FinTech Module Development	Functional Testing & Debugging
Agile Team Collaboration	Production-Ready Delivery
